Light refreshments

Tobacco use is an important risk factor for the development of cardiovascular disease. The aim of this Roundtable is to increase awareness of the link between tobacco use and cardiovascular diseases, such as heart disease, stroke, and to raise support for actions to reduce the burden of tobacco related cardiovascular diseases on individuals and society.

This event is organised with the support of the European Society of Cardiology

The European Heart Network and the Smokefree partnership have received co-funding under an operating grant from the European Union's Health Programme (2014-2020).
